Welcome to Småland – Lundbys traditional doll's house!

Lundby Småland offers plenty of space for playing, both indoors and out, and can easily be expanded with another floor and a lovely summer or winter garden. In this famous doll's house, designed by interior designers Ann Morsing and Beban Nord of Box Design in Stockholm, all the rooms are prepared for electricity, and both the windows and the balcony doors are openable.

The latest addition to the Lundby Småland family is a house that combines Lundby Smålands classic look with an open floor plan. In cooperation with Sandberg Wallpaper, a traditional wallpaper company with Swedish design and production, we've given the walls a romantic yet modern look with fantastic patterns and lovely colors.

We have also given Lundby a high tech boost! Not only does Småland feature a Remote Control Lighting System. We've also created an accessory that is a TV and Music unit set with a built-in Bluetooth speaker. Add some music to your Lundby moments!

Welcome to the inspiring world of Lundby Småland.

THE SWEDISH DOLL'S HOUSE

Welcome to Stockholm – our modern doll's house

This house offers exciting architecture and design, as well as large areas for a lot of play. Our top-modern house features clever details such as a pull-out mosaic pool and a stone patio. In addition, all the rooms are prepared for electricity. Design by interior designers Ann Morsing and Beban Nord of Box Design in Stockholm.

This year we give Lundby Stockholm a high tech boost! We've created a new accessory that is a TV and Music unit set with a built-in Bluetooth speaker. Add some music to your Lundby moments!

Welcome to the exciting world of Lundby Stockholm.

How to connect the electricity

All Lundby houses are made in a sturdy plastic selected specifically to permit a lighting system to be incorporated into the product, ready for lighting in every room.

It's easy to install lights in your doll's house. Just connect the Lundby power supply to the house.

PLEASE NOTE: Lundby electrical accessories may only be used together with a Lundby power supply in a Lundby doll's house.

Lundby was the first in the world to install electric lighting in its doll's houses.

Connecting cord between the house and extension is included in 60.1015 and 60.7026
