Småland, Lundbys traditionella dockskåp med möbler och inredning i klassisk stil har fått ny fräsch färgsättning. Allt från fasad till tapeter och textilier går i nyare tidsenligare färgskalor och mönster. Lundby är en världskändis inom sitt område och var bland annat först i världen med att installera elektrisk belysning i sina dockskåp. Genom åren har generationer lekt med våra dockskåp, alla efter sin tids villkor och trender såväl i Sverige som i många andra delar av världen.

Småland, Lundby's traditional doll's house with classic furniture and interiors, now has a brand new colour scheme. The makeover brings contemporary new colours and patterns to everything from the exterior to the wallpaper and fabrics. Lundby is world famous in its field and was one of the first manufacturers in the world to install electric lighting in its dolls' houses. Always in keeping with the social conditions and trends of the day, generation after generation in both Sweden and many other parts of the world has shared the joy of playing with our dolls' houses.
